### Observations / Comments

The unit runs but does not drive due to a flat tire. Ben Brickey, the site contact present during the inspection, confirmed that the front and rear lights are operational. The unit had to be jumpstarted. The front bumper is dented on the top left. The interior of the unit requires cleaning. The bottom cushion on the driver's seat appears to have a small hole in the material and is torn on the left side. The center seat material has a small stain on it. The windshield appears to be cracked. The engine compartment is dirty. The battery hold-down device bracket has corrosion built up on it, and the bracket is rusting. The air filter housing top cover appears to be missing some of the clips that hold the top cover onto the housing. The fuse panel on the right side of the engine compartment is missing the cover. The engine coolant is at the MIN mark in the reservoir. The left bottom mirror reflective glass appears to be scratched. The rear left grab handle aluminum tube appears to be dented and bent. The license plate light on the rear of the unit appears to be damaged. The front left and front right steer tire treads appear to be worn and have gouges in the rubber. The first right inner and outer drive tires have gouges in the treads. The first left inner and outer tire treads appear to have gouges.
