

RUBBER BLANKET CLAMP PIN

KEY FEATURES

- ✓ Constructed of ultraviolet stabilized fiberglass reinforced polymer
- ✓ Shotgun Stick Compatible
- ✓ Convenient holes in handles to attach warnings, tags, and/or flags
- ✓ Hot Stick clip version

Blanket Clamp Pins are used to hold insulating blankets and other types of rubber coverups in to place. The extra holes in the center of the body are used to grip conductors and prevent linehose from sliding. The handles of the pin are shaped to engage into the end ferrule of a clampstick (shotgun stick).

Also available with Hot Stick clip.

It does not constitute part of a legal offer or contract. For technical specifications, please contact Slingco America, Inc.

Dimensions

The figures shown are indicative only. Fully dimensioned data-sheets are available on request. Nominal figures/actuals are as per data-sheet with tolerances of +/-5%. Please contact us if you have any questions.

Range dimension overlaps If the cable, rope or hose you have lies where ranges overlap, e.g. 1" when sizing is 0.5-1.00 and 1.00-1.5 we recommend that you select your cable grip to achieve break load first. If tensile strengths are equal or both adequate, choose the smaller of the two. Please contact us if you have any questions.
